

PATTARAPORN BOONPEN

Junior UX Analyst | Front-End Developer | Nanomaterial Engineering Graduate

☎ 0452 091 240 ✉ Ming45015@gmail.com 📍 Darwin, NT, Australia 🌐 Open to relocate

PROFESSIONAL SUMMARY

Nanomaterial Engineering Graduate with hands-on research experience and newly acquired Full Stack Web Development skills (HyperionDev × UNSW Sydney). Analytical thinker with a proven ability to interpret complex data and translate findings into actionable outcomes — a core strength for UX research. Experienced in user-centred documentation, cross-functional collaboration, and evidence-based reporting. Trilingual (Thai, English, Chinese) with full working rights in Australia.

KEY SKILLS

UX & Research: User Needs Analysis · UX Research · Evidence-Based Design · Accessibility Awareness · Report Writing

Front-End Dev: HTML · CSS · JavaScript · React · Node.js · C++ · Figma

Analytical: XRD · XRF · FT-IR · Data Interpretation · Lab Documentation · Scientific Reporting

Soft Skills: Fast Learner · Detail-Oriented · Cross-functional Collaboration · Multilingual Communication

Languages: Thai (Native) · English (Fluent) · Chinese/Mandarin (Intermediate)

WORK EXPERIENCE

Research Assistant | Phetchaburi Rajabhat University | 2024 – Present | Part-Time

- Identified user (researcher) needs and designed workflows to streamline chitin synthesis processes.
- Collected, interpreted, and communicated experimental findings to stakeholders through structured reports — mirroring UX research deliverables.
- Collaborated with professors and cross-functional teams to ensure project outcomes met defined objectives.
- Maintained rigorous documentation standards aligned with evidence-based decision-making.

Product Specialist | Spectrum, Thailand | 2022 | Full-Time

- Analysed product performance data and identified improvement opportunities, applying analytical thinking to real-world problems.
- Collaborated with teams to implement process improvements based on data-driven insights.
- Communicated findings clearly to internal stakeholders through written and verbal reports.

Research & Development Intern | Torrecid, Thailand | 2021 | Internship

- Led 'The Illuminating Tile' project — conducted end-to-end research, from problem definition to stakeholder presentation.
- Applied a structured, evidence-based approach to ceramic process analysis, identifying key improvement areas.
- Assisted in data entry, material preparation, and quality documentation across multiple R&D projects.

Tutor | Math & Science | 2020 | Part-Time

- Assessed individual student needs and tailored lesson plans accordingly — applying user-centred thinking.
- Delivered structured learning sessions in English, demonstrating strong communication and empathy skills.

EDUCATION & CERTIFICATIONS

Full Stack Web Development Bootcamp | HyperionDev × UNSW Sydney | 2024–2025

- HTML · CSS · JavaScript · React · Node.js · Figma · C++

Bachelor of Engineering — Nanomaterial Engineering | KMITL, Thailand | 2022

- Faculty of Engineering | Major: Nanomaterial Engineering

Chinese Language (Mandarin) | Providence University, Taiwan | 2023

- Completed full Mandarin language programme — Intermediate proficiency

WHY THIS ROLE

This role at Cathara Consulting aligns directly with my goal of building a career in UX research. My scientific background has given me strong skills in identifying patterns, interpreting data, and translating findings into practical recommendations — exactly what a UX Analyst does. I am fully based in Darwin, eager to contribute to evidence-based digital solutions, and ready to grow in a structured contract environment.
